

American Girls (Overland/Overland)

Heard the song about those California girls
I knew every line
That was me back in '65
One thing on my mind
I'm older, can see wiser now
This passion's grown with time
Even now in the light of experience
Nothing's ever gonna change my mind

Don't know what it is makes me feel this way
I don't really care
Give me another Miss America
There's nothing can compare
With those American girls
Tearing at my heart
All American girls
Where do I start
I love American girls
They're always on my mind
Gimme an American girl
All of the time
I'm going coast to coast
East to West
I'm never gonna settle for the best of the rest
Gimme an American girl

Got my ticket now I'm on my way
Time to make my move
Destination USA
I'm gonna find a place in that New York groove
Blind faith won't let me down
It's taking me all the way
The city lights are getting closer now
They're telling me to stay
With those American girls
Tearing at my heart
All American girls
Where do I start
I love American girls
They're always on my mind
Gimme an American girl
All of the time
I'm going coast to coast
East to West
I'm never gonna settle for the best of the rest

American girls
All those American girls
Tearing at my heart
All American girls
Where do I start
I love American girls
They're always on my mind
Gimme an American girl
All of the time
