

Everytime I Think Of You  
(Mullen/Cesario/Jones)

Move a little closer...

Time stands still  
My heart beats alone tonight  
I wonder how can we bridge this space  
Rebuild all our dreams  
Try to reach out across the sky  
We'll meet in the stars tonight

Why do we choose to be lonely  
Why do we choose to be sad

Everytime I think of you  
I keep thinking there's a place for us again  
Everytime I think of you  
Why can't we reach out  
And touch each other

Lovers walk  
Under the stars tonight  
Why don't we step over time and space  
Fulfil every dream  
We can walk out across the sky  
We'll sleep in the stars tonight

Why do we choose to be lonely  
Why do we choose to be sad  
I wonder why do we do it

Everytime I think of you  
I keep hoping there's a place for us again  
Everytime I think of you  
Why can't we reach out  
And touch each other  
Everytime I think of you  
I keep hoping there's a place for us again  
Everytime I think of you  
Why can't we reach out  
And touch each other

Oh try a little harder  
Ooh lookin' for another world  
Come a little closer  
C'mon and get closer and closer

Everytime I think of you  
I keep hoping there's a place for us again  
Everytime I think of you  
Why can't we reach out  
Why can't we reach out

Everytime I think of you  
I keep hoping there's a place for us again  
Everytime I think of you  
Why can't we reach out  
And touch each other

Everytime I think of you  
I keep hoping there's a place for us again  
Everytime I think of you  
Why can't we reach out  
Why can't we reach out  
Everytime I think of you  
Everytime  
Oh yeah  
Everytime I think of you  
Everytime I think of you

Everytime I think of you  
Everytime
