

Breathe Fire
(Overland/Goldsworthy/Jupp/Barnett)

The whole world's going crazy
And no-one gives a damn
Breathe fire
Breathe fire

Gimme shelter from the pain
'Cos the whole world's gone insane
Tell me how long will it last
Humanity's a fantasy
A thing of the past

We've got brother killing brother
And no-one really cares
There's people giving good advice
That's falling on deaf ears
As the third world stands before us
In second hand clothes
Tell me could this be the end of the world

Breathe fire, say something
Don't you know enough is enough
Breathe fire, say something
If we don't all pull together
Then stop the world, I wanna get off
I wanna get off

Gimme salvation, the strength I need
Some kinda sign, something to believe
If there's a heaven, this must be hell
There'll be no trace of the human race
If you don't show yourself

There's kids out on the front line
Babies hooked on crack
Their mother's milk is poison
Now what chance have they got
The governments and the presidents
Are losing all control
Tell me could this be the end of the world
The end of the world

Breathe fire, say something
Don't you know enough is enough
Breathe fire, say something
If we don't all pull together
Then stop the world, I wanna get off

Breathe fire, say something
Don't you know enough is enough
Breathe fire, say something
If we don't all pull together
Don't you know you gotta
Breathe fire, say something
Don't you know enough is enough
Breathe fire, say something
If we don't all pull together
Stop the world, I wanna
Stop the world, I wanna get off
Stop the world, I wanna get off
