

Inside Out (Overland/Goldsworthy/Jupp/Barnett)

You always told me what you wanted
But I know that talk is cheap
Girl you're so cold-hearted
Just what you're trying to do to me

You laid your cards out on the table
But you dealt a pack of lies
Tell me what am I supposed to do
Every time

You turn me inside out
You're twisting my emotions, you won't let me be
You turn me inside out
Won't you tell me what you want from me

I know that you're the only reason
One day I'm up, the next I'm down
The crazy thing is you don't notice
The way you drag my heart around

Girl you're holding me to ransom
And then you ask me why we fight
Tell me what am I supposed to do
Every time

You turn me inside out
You're twisting my emotions, you won't let me be
You turn me inside out
Won't you tell me what you want from me

C'mon tell me baby

Inside out
You're twisting my emotions, you won't let me be
You turn me inside out
Won't you tell me what you want from me
Inside out
Girl you know you turn me
Inside out
Won't you tell me what you want from me
