

Frozen Heart (Goldsworthy/Overland/Jupp/Overland/Digital)

You left me with a frozen heart...  
Everybody thinks they know the right way  
We were just the same  
So how did we choose the wrong way  
Can you tell me who's to blame  
And everybody's saying that you changed me  
I won't admit it's true  
Telling me  
I'm telling you  
Things just haven't been the same girl  
But I'm dealing with the pain  
Everybody says you're not the only one  
I couldn't face it all again  
They're telling me  
I'm telling you

You left me with a frozen heart  
Will I ever be the same girl  
You left me with a frozen heart  
A frozen heart

You could have been a little more discreet girl  
But not even love's that blind  
Always try to not listen to the things they say  
It's getting harder all the time  
They're telling me  
I'm telling you

You left me with a frozen heart  
Will I ever be the same girl  
You left me with a frozen heart  
Got no more left  
No more left to feel girl  
You left me with a frozen heart  
Oh babe, a frozen heart

I know you're gone  
You won't be back  
I'm left here with this frozen heart  
There's no way out  
No place to go  
I can't find the strength to carry on  
I just can't carry on

You left me with a frozen heart  
Will I ever be the same girl  
You left me with a frozen heart  
You left me with a frozen heart  
Left me with a frozen heart  
You left me with a frozen heart  
And it's never gonna be the same  
Never be the same again now baby  
You left me with a frozen heart  
Got no more left  
No more left to give girl  
You left me with a frozen heart  
Frozen Heart
