

I Belong To The Night (Overland/Overland)

I belong to the night

There's something in the air tonight
Something hiding deep in the dark
I can feel it, I can taste it
And it's giving off a spark
I'm drawn to the neon
Like the creatures drawn to the flame
Electricity burns inside of me
Seems like I'm caught in the game
Faces in the dark are watching me
They don't bother me
'Cos they can see

I belong to the night
I belong to the night
Come alive in the twilight zone
And I long for the night
'Cos the night was made for love
The night belongs to love

Every face has a story to tell
Their eyes hide the secrets they keep
It's survival of the strongest
Lost souls playing hide and seek
Street corner love for sale
A stranger with time to kill
Strictly business, no emotions
Goodbye and thanks for the thrill
Lying there I search for reasons why
Then I tell myself
Why try to justify

I belong to the night
I belong to the night
Come alive in the twilight zone
And I long for the night
'Cos the night was made for love
The night belongs to love
Oh baby

And the night belongs to love

I belong to the night
I belong to the night
Come alive in the twilight zone
And I long for the night
We belong to the night
We belong
And I long for the night
'Cos the night was made for love
The night belongs to love
