

**The Extra Mile** (Overland/Goldsworthy/Jupp/Davis/Kirkpatrick/Morris)

Close all the windows  
Turn out the lights  
Lay down beside me  
Let time pass us by  
I know you feel guilty  
It's the same for me too  
Let's live for this moment  
Just me and you

It's been a long road  
Have we come to the end  
We say it over and over again

**Chorus**

We started this journey  
With eyes open wide  
Excited by danger  
With passion our guide  
We've come to the crossroads  
Gotta mean it this time  
And go the distance  
Go the extra mile  
Go the distance  
The extra mile

Life is too short  
To be livin' a lie  
Love under cover  
Takes its toll on both sides  
I never said it'd be easy  
That much is true  
But the hurt in your eyes  
Says it's getting to you

It's been a long road  
Have we come to the end  
Say it over and over again

Chorus

Innocent people  
With innocent lives  
We can't walk away  
There's no compromise  
At the end of it all  
The problem we share  
Are the two bands of gold that we wear

We ended this journey  
Some tears  
No regrets  
If we had our time over  
I bet we'd do it again

We started this journey  
With eyes open wide  
Excited by danger  
With passion our guide  
We've come to the crossroads  
Could we mean it this time  
Go the distance  
Go the extra mile  
Go the distance  
Go the extra mile

Go the distance  
Go the extra mile
