

Goodbye Yesterday (Overland/Goldsworthy/Jupp/Davis/Kirkpatrick)

Oh it's a crazy world
That we're living in
We all need direction
We all need a friend
I was walking
Down a dusty track
Lost and alone
Couldn't find my way back

Now every day
Is like summertime
Every highway I take
Leads me to paradise
Can't drag me back
To those bad old ways
Hello tomorrow
Goodbye yesterday

It came and hit me like a hurricane
Change is coming and I can't explain

Chorus

When there's no way up
And you're feeling down
Don't give up
You can turn it around
Have hope in your heart
Stand up and say
Hello tomorrow
Goodbye yesterday

So open up your eyes
And look at the world
There's something out there
For every boy and every girl
Hold your head high
And you will find
You can stand tall
Leave all your sorrows behind
Have faith in everything you do
Believe and they'll believe in you

Chorus

Goodbye yesterday

The changing seasons
Bring a change in me

Chorus

Goodbye yesterday

Goodbye
Goodbye
Goodbye yesterday
