

High Cost of Loving *(Overland/Goldsworthy/Jupp/Davis/Kirkpatrick)*

She's got the look to change your world
Well she's everybody's little goodbye girl
But she makes the rules
A beautiful sin
Reel you in
If you think she's your possession
Think again
Don't be a fool

It's a dead end street
So don't waste your time
She's always got you beat

Chorus

It's the high cost of loving
One day you're rich
And then you lose it all
That's a game we play
It's the high cost of loving
It's a loaded dice
Everybody takes a fall
It's a price we pay

That's the high cost of love

She's seen them all
The rise and fall
She's notorious
A dangerous mistake
A hard habit to break

It's a one-way track
If you give your heart
You'll never get it back

Chorus

When there's nowhere left to run
You'd better hide
You'll never be the one
To change her life

That's the cost
That's the cost
The high cost of loving
The high cost of love
That's the cost
That's the cost
That's the cost

Chorus x 2

That's the high cost of love
That's the cost
That's the cost
The high cost of loving
