

Tough Love (Overland/Goldsworthy/Jupp/Davis/Kirkpatrick)

Tough love

Just like a change in the weather
A love-hate kinda thing
It's what keeps us together
We always fight to win
Sometimes it's heaven
Sometimes it's hell
Just like an angel
Or the devil himself

Crossfire
Red light
Just watch those bullets fly
You win again
Hit me one more time

Chorus

With tough love
I can't ever give you up
Well you're just like a drug
I can never ever get enough
Just give me tough love

Say never surrender
That's the rules of the game
We share a strange agenda
We find pleasure in the pain
The coldest winter
With an icy touch
Am I a sinner
'Cos I want you so much

I'm on fire
With desire
Imagination's running wild
So bad
It feels good
Hit me one more time

With tough love
I can't ever give you up
Well you're just like a drug
I can never ever get enough
Just give me tough love

Well gimme gimme tough love

Can you feel it
I'm going under
Like thunder
Tough love
A strange addiction
I can't kick so
Hit me again with
Tough love

Tough love

Well you're bringing me
Down down down down

Tough love
Can't ever give you up
Well you're just like a drug
I can never ever get enough
Just give me tough love
Like a diamond in the dust
Some play it cool
We like to play it rough
Just give me tough love

Give it to me baby
Tough love

Tough love
