

Wake Up The World *(Overland/Goldsworthy/Jupp/Davis/Kirkpatrick)*

Brother
Gotta lay down your guns
And start again
Start again
Brother
This world's for everyone
We all need a friend
We all need a friend
It's on the news every day
We're running outta time
The people say
I can hear them say
Brother
Throw your fears away
Don't be afraid
You don't have to be afraid

If we all pull together
If we all make a stand
Make a change for the better
Well the future's in our hands

Chorus

We can all start a fire
(We can wake up the world)
Every boy and every girl
(Gotta wake it up, shake it up)
Every sister
Every brother
(We can wake up the world)
If we all stand together
We can wake up the world

Sister
It's time to start again
Leave the past behind
Sister
You don't have to walk
Those streets of sin

There's a better life
Oh a better life
It's hard to survive
It's a cruel world sometimes
Don't you cry
Oh baby don't you cry
Sister
Just cast your blues aside
This is your time
This is your time

And the world keeps on turning
Turning day after day
And the lesson we're all learning
That it's time to make a change

Chorus

Chorus

Wake up the world

Every sister
Every brother
We can wake up the world

If we all stand together
We can wake up the world
