

Dangerous Ground (Goldsworthy/Jupp)

Let's walk
Take a walk with me
Let's walk
Take a walk with me
Take a walk with me

Monday morning nine o'clock, I'm punching in
Haven't slept since Friday night, don't know where I've been
Boss man called me over said "Son take my advice
You'd better get your act together and don't give me no jive"

Don't let life get you down
When you're walking on dangerous ground
Don't give up, don't give in
And don't leave any fingerprints
Walking on dangerous ground

Any weather, rain or shine, five days a week
I'm pumping gas all day a ball and chain at my feet
I close my eyes, sit back, my mind starts drifting off
And the boss man he just caught me sleeping on the job

Don't let life get you down
When you're walking on dangerous ground
Don't give up, don't give in
And don't leave any fingerprints
Walking on dangerous ground

I've got five more days of nine to five
Till the weekend comes around
Working in this dead end job really gets me down
But on Friday night I get my pay, gonna satisfy my soul
Gonna rip it up, gonna paint the town
Gonna let those good times roll

Don't let life get you down
When you're walking on dangerous ground
Don't give up, don't give in
And don't leave any fingerprints
Don't let life get you down
When you're walking on dangerous ground
Don't give up, don't give in
And don't leave any fingerprints

Let's walk
Take a walk with me
Let's walk
Take a walk with me
Take a walk with me
Walk on
