

If It Feels Good (Do It) (Goldsworthy/Jupp/Overland)

Wise up, get ready, do you want to have some fun
Get wild, get lucky, do you want to get it on
It's down to you, you've got to strut your stuff
Talk cheap, talk dirty, tell me have you got the guts

Don't let your conscience get the better of you
You've got nothing to hide
Grab yourself a ticket for a white knuckle thrill
You don't know what you're missing
Till you give it a try

If it feels good do it
Loosen up and let yourself go
If it feels good do it
Let me see you lose control

Bright-eyed, tongue-tied, looking sweet and innocent
You're much too shy, acting like you're heaven sent
Get up, get ready, you've gotta make your move
Walk tall, rock steady, with a little attitude

Don't let your conscience get the better of you
You've got nothing to hide
Grab yourself a ticket for a white knuckle thrill
You don't know what you're missing
Till you give it a try

If it feels good do it
Loosen up and let yourself go
If it feels good do it
Let me see you lose control

If it feels good do it do it
If it feels good d-d-do it d-d-do it

If it feels good do it

If it feels good do it
Loosen up and let yourself go
If it feels good do it
Let me see you lose control

If it feels good
If it feels good
If it feels so good
If it feels good
If it feels good
Do it
You've gotta do it
