

Only The Strong Survive (Goldsworthy/Jupp/Overland/Barnett)

There's a cold wind blowing through my soul tonight  
There's an empty feeling deep inside  
There's a dream I'm chasing that I just can't find  
And the clock keeps ticking  
Am I running out of time

There's a storm that's raging through my desperate heart  
But I'm picking up the pieces and it tears me apart  
Through the pride and the passion  
Through the love and the hate  
Never stop believing, never hesitate

When the heart is weak and it gets too much  
Bite on the bullet, don't give up

The harder they come, the harder they fall  
The road that we travel goes on and on  
Life's for the takin', it's black and it's white  
So don't ever give up the fight  
'Cos only the strong survive  
Only the strong survive

When the odds are against you  
And your back's to the wall  
When it comes down to it you've gotta fight or fall  
If it takes a lifetime but you get there in the end  
Feel the power and the glory, it's worth it my friend

'Cos all is fair in love and war  
And if something's worth keeping, it's worth fighting for

The harder they come, the harder they fall  
The road that we travel goes on and on  
Life's for the takin', it's black and it's white  
So don't ever give up the fight  
'Cos only the strong  
I said only the strong survive

The harder they come, the harder they fall  
The road that we travel goes on and on  
Life's for the takin', it's black and it's white  
So don't ever give up the fight  
The harder they come, the harder they fall  
The road that we travel goes on and on  
Life's for the takin', it's black and it's white  
So don't ever give up the fight  
'Cos only the strong  
I said only the strong survive  
Only the strong survive

I said only the strong survive
