

Bad Luck (Overland/Overland/Child)

There's a cry from the street
In the dead of night
A cold empty feeling
Losing the fight
You give till it hurts
You don't know why
In the name of love
You kiss your heart goodbye

All my life
I've been waiting for this time to come
It's been a long hard fight
'Cos my heart's been under the gun

I've had bad luck finding a lover
Bad luck keeping the love I found
Bad luck over and over
But tonight your eyes say
You're gonna turn my luck around

When it comes to love
I heard you wrote the book
Broke all the rules
That's the chance I took
Your body's talking
I hear what you say
Am I the loser
In this game we play

All my life
I've been waiting for this time to come
It's been a long hard fight
'Cos my heart's been under the gun

I've had bad luck finding a lover
Bad luck keeping the love I found
Bad luck over and over
But tonight your eyes say
You're gonna turn my luck around

I've had nothing but bad luck
It just follows me around
All my life

All my life
I've been waiting for this time to come
It's been a long hard fight
'Cos my heart's been under the gun

I've had bad luck finding a lover
Bad luck keeping the love I found
Bad luck over and over
I've had bad luck, just a little too much
Bad luck finding a lover
Bad luck keeping the love I found
Keeping the love
Bad luck over and over
Baby you can kiss your heart goodbye
Bad luck finding a lover
Bad luck too much
Bad luck over and over
Baby I can see it in your eyes
