

Burning My Heart Down (Overland/Overland/Child)

You're burning my heart...

Hot legs, red lips, you turn on the night
You've got the kind of look to make my body ignite
When you turn up the heat
My blood it still runs cold
I've got this funny feeling that I sold my soul

When you're playin' with fire
Someone's gonna get hurt

You're burning my heart down
To the ground, to the ground
The flames start getting higher
When you come around
You're burning my heart down

Too much, too soon, and then it's too late
One look at you and it's sealed my fate
Every time we touch
It's giving off a spark
You've got me so hot girl you're burning down my heart

When you're playin' with fire
Someone's gonna get hurt

'Cos you're burning my heart down
To the ground
The flames start getting higher
When you come around
You're burning my heart down
You're burning it to the ground
You can't put out the fire
With the tears of a clown
You're burning my heart down

You're burning my heart down
Oh to the ground, to the ground
You're burning my heart down
Yeah to the ground, ground, ground
You're burning my heart down
Oh to the ground, to the ground
The flames start getting higher
When you come around
You're burning my heart down
You're burning it to the ground
To the ground
You can't put out the fire
With the tears of a clown
Tears of a clown
You're burning my heart down
