

Does It Feel Like Love (Overland/Overland)

Always the wild one
From the wrong side of town
Forever on the run
Nothin' to tie you down
Never needed anybody
To hold on to
So maybe it's just being alone
That's getting through to you

Tell me how does it feel
Is it burning you up inside
Is it history, the way you used to be
Have you given up the fight

Does it feel like love
Tearing at your heart
Does it feel like love
That's tearing you apart
Does it feel like love
Tearing at your heart
Does it feel like love

Did you blame it on the night
Were you off your guard
Did it feel alright
Or did it come real hard
Just a lonely heart
Lovin' on the run
Did it open up your eyes to find
You're not the only one

Tell me how does it feel
Now you're on the other side
Is it a mystery, the way you used to be
What were you trying to hide

Does it feel like love
Tearing at your heart
Does it feel like love
That's tearing you apart
Does it feel like love
Tearing at your heart
Does it feel like love

Just a one night stand
Not a major love affair
You had nothing planned
Never thought you'd find someone to care

Does it feel like love
Tearing at your heart
Does it feel like love
That's tearing you apart
Does it feel like love
Tearing at your heart
Does it feel like love
