

Feels So Good (Overland/Overland)

We've always gone our separate ways
Playing all those power games
This is just a physical thing
So don't talk about love, don't talk about love
We never have too much to say
No common ground, no state of play
No-one's making any plans for the future
Don't talk about love, don't talk about love

We could walk away
But where would we go
So what's keeping us here
I think we both know

That it feels so good
When we make love
That fire in your eyes
Takes me by surprise
And it feels so good
Oh when we make love
When we make love baby

Why try to read between the lines
You won't find no vital signs
'Cos it doesn't cut any deeper
Don't talk about love, don't talk about love
I think we know just where we stand
Love and hate walk hand in hand
When you know it's just a physical thing
You don't talk about love, don't talk about love

We could try a little harder
Give a little bit more
But I think we've found
Just what we're looking for

'Cos it feels so good
When we make love
That fire in your eyes
Takes me by surprise
Feels so good
Oh when we make love
Oh when we make love

We could walk away
But where would we go
So what's keeping us here
I think we both know

That it feels so good
Oh when we make love
That fire in your eyes
Takes me by surprise
Feels so good
Oh when we make love
That fire in your eyes
Takes me by surprise
Feels so good
When we make love
There's a fire in your eyes
Takes me by surprise
And it feels so good
