

The Dream That Died (Overland/Overland)

Well I've been looking back
On all the things we had
I was playing games
I thought you understood
You never let it show
You didn't give a sign
You just closed the door
I never thought you would

Every time I turn out the light
You're here beside me
It's not me you're with tonight
Tell me why

I saw the dream that died
I watched it slip away
And now the dream has died
There's nothing left to say
Nothing left to say

It didn't take too long
You never were that strong
But then I know
You never liked to be alone

Every time you turn out the light
Do you think of me
Even though you're with him tonight
Tell me why

I saw the dream that died
I watched it slip away
And now the dream has died
There's nothing left to say
I saw the dream that died
You know we just ran out of time
And now the dream that died
Is his instead of mine

I saw the dream that died
I watched it slip away
And now the dream has died
There's nothing left to say
I saw the dream that died
We just ran out of time
And now the dream that died
Is his instead of mine

Never let it slip away

I saw the, I saw the, I saw the dream that died
I saw the, I saw the, I saw the dream that died
I saw the, I let it slip away,
I saw the dream that died
